

BOLD and BRILLIANT. Say YES to YAWAL USA

HIGH PERFORMANCE WINDOWS AND DOORS FEATURING BEST IN CLASS QUALITY, TECHNOLOGY, ENERGY EFFICIENCY AND CONTEMPORARY DESIGN

### Say YES to the YAWAL USA LINEAR DRAINAGE SYSTEM

Linear drainage is a gutter installed at the level of the floor used to condensate drainage which inflow to the structure and those which create inside of the structure.

The special design of the solution, in which one of the lower widening walls is inclined, ensures gravitation outflow of water to the gutter. Additionally, the lower widening is available with milled drainage holes, which create channels allowing the water flow.

The linear drainage system of the Yawal company is equipped in specially designed connectors which make it possible to bend the gutter at any angle.

## LINEAR DRAINAGE SYSTEM SIGNIFICANT BENEFITS

+	Linear drainage integrated with the frame	+	Saves time required to prefabricate profiles
+	Combines seamlessly with other Yawal USA systems	+	Gravitational outflow of drainage thanks to inclined lower widening wall
+	Connectors which allow any shapes of gutters	+	Aesthetic perforated metal sheet INOX
